Custom Designs For Ultimate Protection

## Bike Cargo Trailer

Our bike trailers are designed to meet your transportation needs with ultimate convenience. They are easy to attach and detach as required with the drop down prop stand keeping the trailer stable. The robust steel frame ensures a long-lasting performance and protection against the elements. The perfect addition to your biking experience!

### Warnings:

- Do not load the trailer with more than 60kg
- The recommended speed limit is 16km/h
- Do not use the trailer to transport people
- Do not perform any technical modifications to the trailer – this can lead to road hazards and the manufacturer warranty will be void
- Always wear a helmet
- Do not use the trailer on stony roads or uneven terrain
- Do not over fill the trailer to prevent items falling out during travel

### Parts List

1 x Frame Body

2 x Wheels

1 x Box

8 x Safety Reflectors

1 x Hood

1 x Towing Bar (Under)

1 x Towing Bar (Upper)

2 x Allen Keys

1 x Spanner

2 x Safety Pins

1 x Foot Stand

1 x Coupling

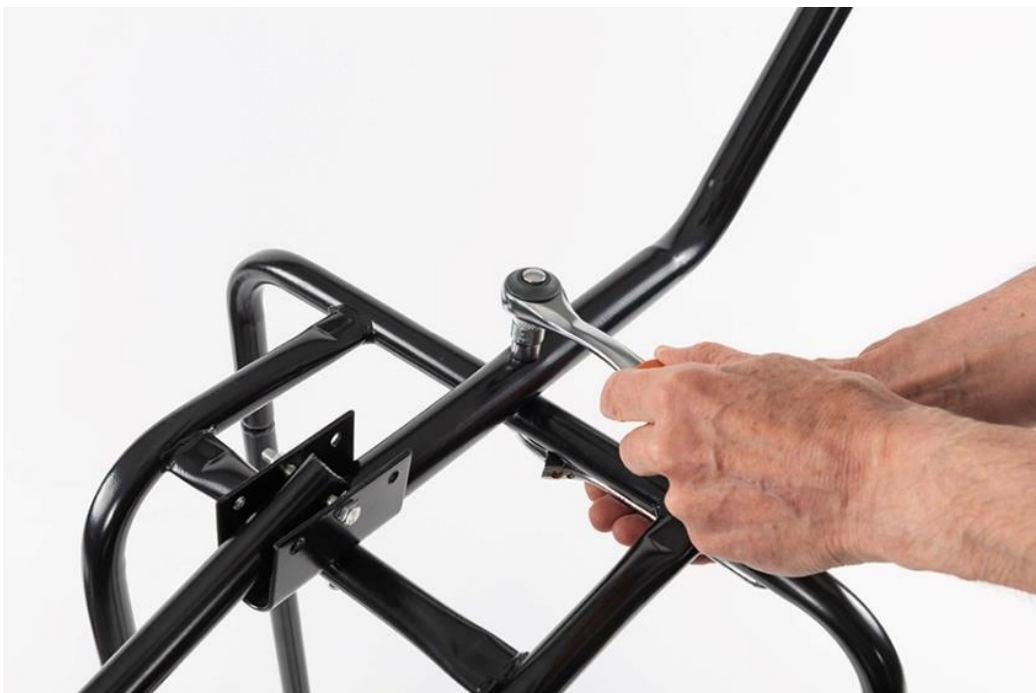

## Assembly

### Step 1

Slot the upper towing bar into the foot stand and place against the frame

Screw the towing bar into the frame and secure it with a nut

## Step 2

Secure the foot stand as shown below

### Step 3

Insert one wheel into the lower bar of the frame and secure with the safety pin.

Repeat on the opposite side.

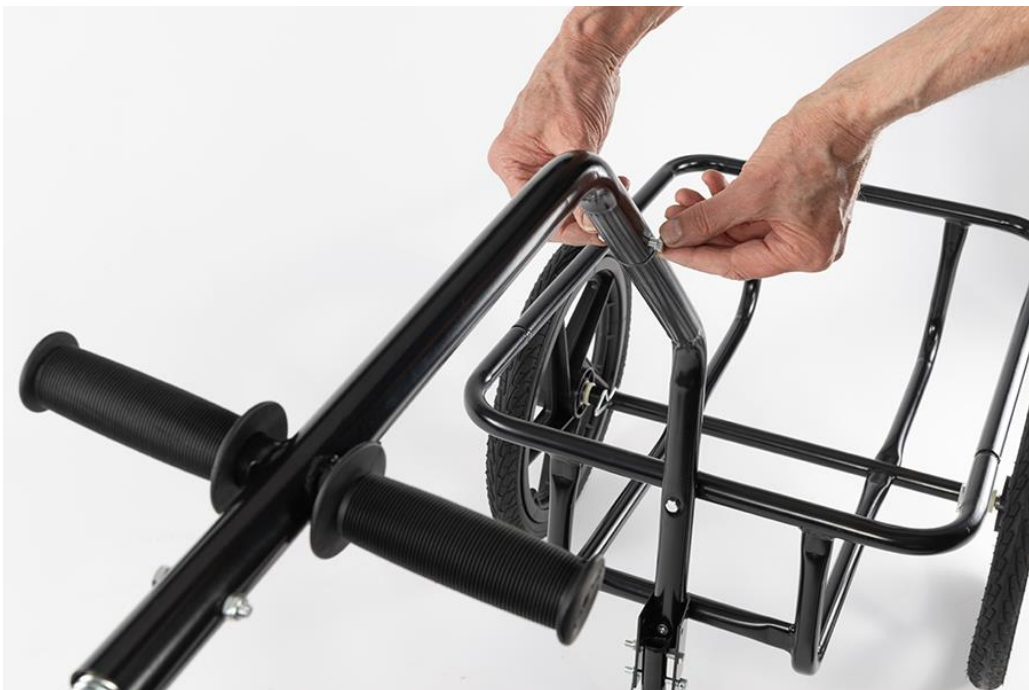

## Step 4

Insert the towing bar with handles into the upper towing bar

Screw the two bars together as shown below

## Step 5

Attach the two white reflectors to the front of the trailer and then attach the two red reflectors to the rear of the trailer

Attach the orange reflectors to the sides of the trailer.

## Step 6

Place the box in the frame and attach the hood to the frame, using the Velcro strips

## Step 7

Using an allen key, attach the connector below the bike seat as shown below

### Step 8

Attach the upper towing bar to the connector and secure the safety clip
